Post-Op Desexing Handout

Thank you for choosing Avonhead Vets to complete a desexing procedure on your beloved dog – we can assure you, we have taken every precaution to ensure they have received the best care AND TREATMENT, WHILE THEY HAVE BEEN WITH US TODAY 😊.

WHAT TO DO, WHEN YOU GET HOME

Your dog may have an anaesthesia “hangover.” They may be grumpy, or very reactive to noise, quick motions, bright lights, etc. Keep them in a quiet, dark, warm place. Keep them separated from other pets and children, and general commotion. You may need to reintroduce food slowly. Offer a small amount of food and water, if they are not nauseous. We advise looking at your pet’s incision daily, so that you know what it looks like, that way you will be able to see how it is improving

DIETARY CHANGE AFTER SURGERY

We are working together with the team at Royal Canin, to help provide the specific dietary requirements for dogs, after they have been neutered. In this pack, there is a voucher for your first bag.

Key benefits your dog will gain, post neutering, with the Royal Canin Neutered range:

- ✓ Helps maintain ideal weight, as they tend to gain weight, post neuter.
- ✓ In larger breeds, protein and mineral formula to help protect and nourish the bones and joints for growing dogs.
- ✓ Well-balanced diet, which helps maintain a healthy coat and body condition. Omega & fatty acids help reinforce the coats natural beauty and protect the skin barrier.
- ✓ A mixture of prebiotics to help support the immune system of a growing dog.
- ✓ Plus, great taste with a money back guarantee – if they don’t like it, simply bring it back!

Should you have any enquiries or further concerns about the post-operative care of your dog, please do not hesitate to phone us at (03) 358 4407 to discuss.

We hope they have a smooth recovery and get well soon!

WARMEST WISHES, THE TEAM AT AVONHEAD VETERINARY CLINIC

“We understand the special role your pets play in your family. It is our aim to preserve that relationship by providing the best in veterinary medicine, delivered with compassion, integrity and good old-fashioned care.”
